## **Upcoming Assessments:**

**Upcoming Assessments: Case 21 Benchmark Nov. 1-5**

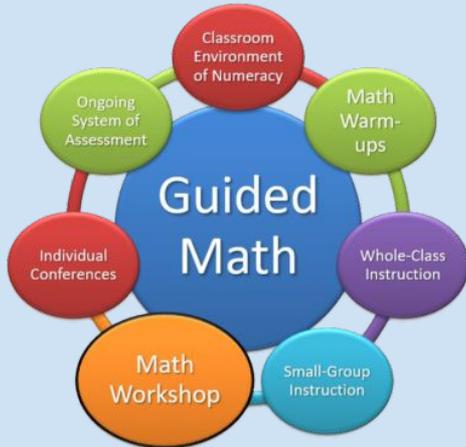

\*Grades 3-8 ELA and Math

\*Grades 5 and 8 Science

# Professional Development

Our most recent teacher workday was spent addressing school culture, who we are and how each of us plays a role in the culture of our school through our effective instruction and participation in the systems established.

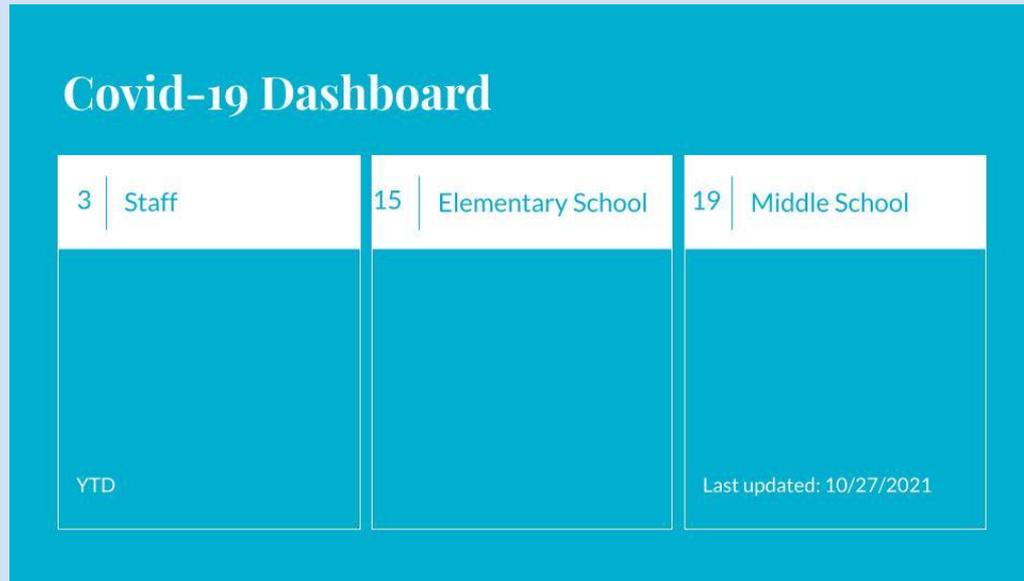

This year we embarked on a yearlong mission to improve student math outcomes through guided math practice. This encompasses work within our leadership team as well as by supporting each teacher through coaching, grade level PLC and data discussion. This work is being done in partnership with MorphEd.

# Covid Updates

\*Covid Case numbers are trending down.

We continue to communicate our Covid numbers weekly through our Covid Dashboard.

Example:

# Around Campus!

Hispanic Heritage Month

9/15-10/15

# Innovative Programs

**Innovation Academy Students** are preparing for the Future City Competition. Updates coming!

**Plus Math Inc.** Our math and business department has started a non-profit organization which is geared to finding volunteer math tutors to work with our students. Funds raised will go back to the math and business department for project and program development.

**Academic/Athletic Mentoring**

# Curriculum Night/Parent Night

**9/13-9/17**

Teachers held virtual curriculum nights. They were well attended and allowed for those who couldn't make it to access the information through the slide presentations.

**11/9**

Parent Partnership Meeting

**12/2**

Our next family night will be in person. The theme is "Today a Reader, Tomorrow a Leader".

# STEM

## **11/8-11/12 Innovation Week**

We call on parents who work in STEM fields to share the work they do in their careers with our students. This year we will offer in person and virtual workshops for students in all grades.

**NASCAR Hall of Fame** Mrs. Benghiat secured a grant that will allow all of our students to participate in person at the Nascar Hall of Fame and through virtual workshops. Students will interact with NASCAR Engineers in activities aligned to their grade level standards. The Foundation provides the materials necessary to make this a hands on experience.

## **Girls Who Code**

**Vex Robotics Competition Coming up!**
